PLAN TO BATTLE FILLED MILK BILL

Condenseries Challenge Legality of Move to Prevent Manufacture.

(By Associated Press.)
Madison, Wis.—Wisconsin again will be the battle ground for a legal fight over the authority of a state to prevent manufacture and sale of adulterated food products, representatives of condenseries making filed bills in the state supreme court. They intend to attack the constitutionality of the committee on agriculture bill, which prevents sale and manufacture of condensed milk from skim milk, compounded with coconut oil to replace butter fat. Enforcement of the measure will require some condenseries to manufacture the product extensively, to move their plants from the state.

J. Q. Emory, veteran dairy and food commissioner, who was a vigorous exponent of the bill, says he will enforce its provisions strictly. The state supreme court decided against the bill in 1917, but the question somewhat similar to that involved in Wisconsin.

DRY LAW WILL BE ENFORCED IN ROCK

Continued from page 1.)
words it is not necessary for us to go into court and show that liquor is unlawful or prove intent of one to sell, but the very fact any one is caught with liquor is prima facie evidence of guilt.

Out Go Bars
Thirty days in the "dry-saloon" must assume a different appearance.

Down comes the screens, painted windows, blinds, stage curtains, and a clean, bright interior. This feature is to be rigidly enforced according to the district attorney.

Out goes the time honored and monumental bar with its foot railing and towels.

"The law may allow a small counter on which the keeper can draw the funds and place them on the counter—but no one can stand to that or any other bar and drink," explained the district attorney. "The standing bar and counter must be put out of the building. I am not sure whether even a small 'tap' bar would be allowed. The law is plain on this feature, and as it is the law, it will be enforced as far as I am concerned."

Drunk Costs More
The old drunkenness penalty is back again, only the state has increased the penalty. Evidently they considered a "drunk" worth more in the days of prohibition for the fine is not to exceed \$100, nor more than 60 days in the county jail, or both. Cities and towns can enact their own laws providing penalties for violation of the code reading "any person found in any public place in such a state of intoxication as to disturb others, or unable, by reason of his condition, to care for his own safety or the safety of others."

The right to inspect a drinking establishment is granted to the prohibition agents at any time without a warrant.

No person is granted immunity to the contention that it would incriminate him or subject the witness to a penalty.

Even Doctors Cured
It is now unlawful for a physician to prescribe liquor or for a druggist to sell liquor until a state permit is obtained and the permit is \$30.

The statute clearly defines what is intoxicating liquor and applicable to the act. One can't even advertise the stuff or sell or advertise materials.

"All vehicles seized in an arrest can be sold upon the conviction of the owner for violating the prohibition law."

The letter of Commissioner Smith carries the notion "A state unable to enforce its laws cannot exist long" and ends with "Your sincere cooperation is solicited to the end that the illicit traffic in intoxicating liquors be prevented."

Evidently even Wisconsin is in for a long dry spell—and it is not going to be the weather.

NO TOURIST CAMP

When the season for the tourist with the camp outfit and the family is on in full blast Janesville finds itself without a tourist camp in spite of all that has been said on this subject.

On the state map a camp is located at the fair grounds and another at Riverside park. There is none at all at Riverside and no one can camp there except by arrangement with the owners.

At the fair grounds where the fair management has given the use of the grounds for tourists there is nothing to indicate any thing like a "camp" as the tourist knows it. The grounds look as they always have. The "camping place" is under the grand stand. A reporter for the Gazette Tuesday night was there at 7 o'clock. It was as silent as the grave. The usual litter was there in a more or less orderly manner as it would appear any time between fairs. There were no signs of anyone having camped there. The grounds look as they always have. The usual litter was there in a more or less orderly manner as it would appear any time between fairs. There were no signs of anyone having camped there.

One can get water. There is no way of getting gas. If the night is cold the tourist will have to hunt up the care-laker and then he may be permitted to enter one of the buildings.

That is the tourist camp as we have it now. There are many possibilities of making it better.

On Saturday, on Sunday and Monday, and continuing since in a lesser number, a stream of machines northward have been passing through Janesville. They have come mostly from Illinois but there have been automobiles from Kentucky, Tennessee, Missouri and Wisconsin. One lone one came from Georgia, Tuesday.

These tourists are going north. They want to avoid Chicago on the upward trip and keep away from Milwaukee. Every section of the state is to be covered by the tourists. The usual trip from here is either by Madison to the Delta and north from there or by way of Waukesha and then north down the Fox river valley and to the upper peninsula, returning by way of the big towns.

These thousands of tourists want places to camp. They have come north by machines because they want the automobile trip and the outdoor life. They have found in travel, real camps, with facilities provided for them and to avoid the hotel building signs and a welcome. There is no sign anywhere here, even at the fair grounds to show the tourist that he has arrived.

A movement is on foot to make a real camp. The automobile association has taken the matter up. Manager Holman, of the Chamber of Commerce, said that the chamber had gone as far as it could in securing the fair grounds and there was no funds to make even the signs.

The great stream of travel on the west side of the city would demand a camp there. The tourist has nothing inviting except the road ahead of him to Evansville or Madison where he has a camp that will make him remember the place.

It may be late but it is still time to act in the tourist matter and that Janesville should get the best there is out of several hundred thousands of passing travelers not through here in advertising and satisfaction and pleasant remembrances.

Unions Pushing Sales Campaign

A meeting of the committee in charge of the campaign to increase the sales of union made goods in Janesville, under the auspices of the Central Labor Union, met in Labor hall Tuesday night and completed arrangements.

The labor unions are determined to put forth every effort to see that members buy union-made goods and patronize home merchants instead of buying at mail order houses.

A census is being made of the Janesville stores to determine whether or not union made goods are sold. Merchants thus far been called upon have offered their cooperation in selling union goods if there is a demand for them.

Investigation in other cities has shown that members of unions sometimes are not particular as to whether they buy union-made clothes or not. Pledges are secured from the union members that they will not buy such goods whenever possible.

EXPECT ARREST OF LAST OF WET RING

Two Chicagoans Surrender; Will be Arraigned in Milwaukee Federal Court.

Milwaukee—The arrest of the only alleged member still at large of the Milwaukee-Kenosha whiskey ring was expected Wednesday following the surrender at Chicago Tuesday of Harry Feuer and Charles Grosscurth of that city.

They were arraigned before a United States commissioner in Chicago and their bail was fixed at \$5,000, which they gave. They will be arraigned in federal court in Milwaukee soon.

Feuer and Grosscurth are co-defendants with Walter M. Burke, Kenosha lawyer; Joseph A. Badar, Milwaukee cafe proprietor; Bert Herzog, formerly in charge of the enforcement of prohibition in Milwaukee; Joseph Custer, formerly in charge of the internal revenue office at Kenosha, and others in an alleged conspiracy to bring whiskey into Milwaukee and Kenosha in carload lots.

Milwaukee—Charles Murray, Kenosha, was arrested today on an indictment by the federal grand jury, charging him with conspiring to bring beer into Milwaukee in charge of the enforcement of prohibition in Milwaukee.

Murray is a co-defendant with Walter M. Burke, Kenosha lawyer; Louis Schreyer, Kenosha wholesale liquor dealer; Edward Kosterman, Kenosha banker; Joseph Custer, formerly in charge of the internal revenue office at Kenosha, and Pettor Galles, a Kenosha saloonkeeper.

Murray is alleged to have been a party to a conspiracy in which Dr. Herzog is charged with receiving at least \$3,000 in return for "giving down" on efforts to apprehend the Milwaukee and Kenosha by carload.

James A. Stone, Reedsburg, new federal prohibition director for Wisconsin, appeared at the director's office for the first time Tuesday. Mr. Stone has received his commission and will take charge in a few days.

The attack followed a week of strike disorders here during which numerous shots have been fired at railroad employees who have taken the piece of strikers.

TEACHERS' FUND MEASURE SIGNED

Madison—Governor Blaine has signed the bill reaping the teachers' retirement fund law in the state, to place it on a sound financial basis. The law is financed by a one-sixth increase in income taxes and will raise approximately \$1,000,000 annually.

The governor also signed the bill re-apportioning the state into senate and assembly districts. By this bill Winnebago county will lose an assemblyman and there is a shifting of some of the districts in the center of the state.

Milwaukee gains a senator and assemblyman. Racine county becomes a separate senatorial district and Kenosha county gets an additional assemblyman. Winnebago and Calumet counties have been placed in the same senatorial district.

PEASANTS FIGHT SOVIET TROOPS

Irregular Warfare Continues Along Volga; Farmers Use Crude Weapons.

[By Associated Press.]

Riga. — Irregular fighting between Russian peasants and Red troops is continuing along the Volga river, in the vicinity of Saratov, according to Daniel Isaac, a missionary of Parker, S. D., who has arrived at Riga with his wife, after a sojourn of many years in Russia.

Mr. Isaac said the peasants, led by Antonoff, Makino, Wakulin and other irregular leaders whom the Bolshevik term "bandits," are constantly opposing the red contingents in the Volga villages, although they are armed mostly with pitchforks and scythes.

Fighting began in January, when the commissars seized sheep, cattle and grain, even to chicken food, leaving only 20 pounds of grain per man to support the people through the winter," said Mr. Isaac.

The time from Janesville to San Francisco is 40 minutes.

Agreement Is Victory for Chinese Plan

[By Associated Press.]

Peking. — Conclusion of an agreement for resumption of diplomatic and commercial relations between China and Germany, wherein the latter consents to abrogate consular jurisdiction or extra-territoriality, marks the second victory for China in this direction. On withdrawal of official recognition of the Russian legation last September, all Russians in China came under jurisdiction of Chinese courts.

The agreement just signed provides for the mutual right of the nationals of each country to reside, travel and engage in the territory of the other.

The voluntary relinquishment of extra-territoriality by Germany is a step toward realization by China of her desire to terminate foreign jurisdiction entirely within her boundaries.

DRIFT 12 HOURS IN PATH OF SHIPS DURING HEAVY FOG

[By Associated Press.]

Duluth. — Drift for 12 hours in a heavy fog on Lake Superior, and in the path of large lake steamers, was the experience of the crew of a derrick scow owned by a local concern.

While the dredge was collecting a load of sand near Two Harbors, its tug moved off to give the dredge "working room." A heavy fog suddenly sprang up and before the tug could get the bearings the scow had drifted out of sight.

Late Tuesday, after an all-day search, the tug found the scow near Devil's Island. It had drifted 25 miles almost directly in the channel of dozens of large passenger and freight steamers.

MARNE FIGHTERS TO MEET JULY 13

Many Rock County Men of Third Division Will Attend Convention.

Rock county youths who fought with the "Marne division" the Third division meeting in Milwaukee, July 13, 14 and 15.

There are a number of Janesville youths who were members of this famous regular army unit when it made its illustrious stand at the Marne river during the height of the battle of Chateau Thierry in 1918, when it met and defeated the crack German divisions "on their way to Paris."

Every Marne man is urged to attend the Milwaukee convention to renew the bonds of comradeship created in France. The headquarters of the society of the Third division is in Little Rock, Ark.

The third division's great pride is based on the contention that it is the only A. E. F. division entitled to wear six stars on its victory medal and one of its regiments the 35th Infantry, is the only regiment singly cited in the complete report of General John J. Pershing.

Among the members from Janesville who will attend the meeting is Hector Blensdale, who was decorated for valor at Mezy during the height of the battle of the Marne.

TAKE FIRST IN TEAMS ENTERED FROM WISCONSIN

Members of the outdoor shooting team of the Janesville rifle club landed in eighth place in the annual shoot of the National rifle association according to information received here Tuesday. At the same time they knocked off first place for Wisconsin, defeating four teams of Racine. The local club had a total of 8,783 for the four matches. There were 28 clubs from all over the country taking part in the shoot, the scores being sent to headquarters of the National at Washington for comparison.

Second in Fourth Week. Winners of the meet were the National capital rifle club of Washington, D. C. with a grand total of 3,889. The Pasadena rifle club was second with 3,850, being awarded this position because they were three points less in long range firing. Third went to the Davenport high school rifle club with 3,853.

Janesville shot into eighth place by putting over the second highest total score in the fourth week of the shoot. The local men hit the bulls' eye for 971 being beaten in that round only by the Washington club which had 974.

The four Racine clubs that shot in the tournament landed in eighteenth, twenty-second, thirty-fourth and thirty-fifth places. These clubs were the Case Eagles, the Mitchells, the Case Eagles and the Case Eagles 8rd.

Seven Over 90 Percent. Seven of the ten Janesville shooters made better than 90 percent scores for which they received medals. The scores of the local men, Nott getting twenty-third place, were:

Albert Nott, 192; Frank Hamilton, 190.5; Dr. R. J. Hart, 188; James Chase, 187.5; Dr. Emil Schneider, 186; Dr. J. Smith, 184.5; and Roy Church, 184.

No shooting has been held at the outdoor range of the local club for several weeks because of the extreme heat. The club expects to resume as soon as the weather cools.

Former Mayor Has Good String in Race Meet

Entrance of the seven head Fitzell stable of John C. Nichols, formerly of Janesville, into this city Tuesday night was like one of triumph. The string raced at Sun Prairie on Sunday and Monday and came near cleaning up the entire programme. Out of five starts, he won four firsts and one second.

Mr. Nichols, now in the manufacturing business at Sheboygan, has been racing his string around the various parks of this city, the Lovelace, formerly of this city, is the trainer and driver of the horses. Three horses are due to arrive this week from Lexington, Ky. Their owner, John Bagelman, will arrive with them. If E. McNutt of Oxford will also arrive this week with his stable, including the best horse, James K. B., which is being prepared for the \$1,000 stakes.

Ruth was on third base but Umpire Connelly sent him back to second under the ground rules.

Who says that "bargain" tires are what the people want

Most everybody knows the easy-going sort of man who never takes a tire seriously until he gets a blow-out.

How long he will resist universal tire education is a question.

But this is sure—

More people are finding out every day that between leaving things to luck and getting real economy there is a big difference.

Many a car-owner has come to U. S. Tires because he couldn't afford to keep on paying that difference.

Probably seven out of ten users of U. S. Tires came to them only after they'd had enough of "discounts," "bargain offers," "clearance sales of surplus stocks" and other similar appeals.

They have found economy—and they stick to it.

They pay a net price—not "something off list" that may not mean anything in the first place.

They get fresh, live tires, being made and shipped while this message is being written.

No matter where they live there's a nearby U. S. Dealer with his nearby U. S. Factory Branch.

U. S. Tires keep moving.

No opportunity to get old and dried out. No shifting here and there trying to find a market.

Every U. S. Tire a good tire, wherever you find it anywhere in the country.

Because the U. S. policy is a good policy that serves the car-owner all the time.

Doing the very best for him that human good faith can do.

THE U. S. CHAIN TREAD

One of the few tires of which it may be said that they deliver economy year-in and year out and tire after tire.

The U. S. Chain Tread gives sufficient traction on all ordinary road surfaces. It is probably the handsomest, and by all odds the most popular, of the whole U. S. Fabric Tire line.
